

Dear Sirs:I just want you to know that I am in TOTAL support of XM radio and the services they provide. As a commercial truck driver, it is so much better and safer to listen to one radio station when I am driving and do not have to look for new station because i travel out of their broadcast area. I realize that local radio stations play an important part in American life, however, if they can not compete with new technology then they need to disappear like black and white TV.
